Headwater incorporates all objection grounds stated in its motions *in limine*, motions to strike, *Daubert* motions, summary judgment motions, and objections to Samsung's full exhibit list. Headwater further objects to each Samsung bucket and/or exhibit objection to the extent not preserved and/or to the extent Samsung is using the Court's "bucketing" order to add new objections or to categorize one or more exhibits into a "bucket" where the exhibit(s) is not properly grouped as such based on Samsung's preserved objections.
